🔗 My Portfolio

Profile

Fresh SQL & Python Developer skilled in database optimization, automation, and data analysis. Built an AI assistant, optimized databases, and automated reporting workflows. Detail-oriented, fast learner, and passionate about problem-solving

Projects

Personal Portfolio :

I have designed my portfolio by using basic Html and CSS java-script.

Portfolio [🔗](#)

Virtual Assistant:

I created a simple VA virtual assistant using python

VA-Virtual-Assistant [🔗](#)

ETL (Extract, Transform, Load):

Developed a Python-based ETL workflow that transforms raw data into clean, structured insights stored in SQL.
